5. Environment/Operational Specific Requirements

ASEMS Document Version:

1.0

Effective From:

Monday, 25 November, 2024 - 13:30

Summary:

This procedure contains guidance for specific tasks and activities required of DE&S not covered within the main policy, guidance or assurance.

5.1. Introduction

5.1.0.1.

This procedure contains guidance for specific tasks and activities required of DE&S Delivery Teams which are not covered within the main body of ASEMS.

5.2. Supporting Op SCORPIUS

5.2.1. Guidance for DE&S Delivery

5.2.1.1.

The guidance sets out how taskings in support of Ukraine and Op SCORPIUS should be approached from a Safety & Environmental perspective, it aligns to relevant international agreements and forms part of DE&S policy through ASEMS.

5.2.2. Acquisition Safety & Environmental Tailoring

5.2.2.1.

The following document has been released to support the effort by DE&S to provide equipment and support to Ukraine following Russia's illegal invasion. The document sets out how taskings in support of Ukraine and Op SCORPIUS should be approached from a Safety & Environmental perspective.

The guidance within the document **only applies to taskings in support of Ukraine**, predominantly under Op SCORPIUS. Support to other Operations remains governed by ASEMS with appropriate approach for that Operation in consultation with Duty Holders, TLBs, Equipment Sponsors and guidance from QSEP.
