1. 20231214 – Update to Wording for Procuring COTS/MOTS

Following the update to the COTS/MOTS guidance wording during November 2023, it has been recognised that Domains are able to utilise the guidance to assist them in identifying and developing specific strategies (e.g., Commercial maritime Approach to the Management of COTS float and move Equipment (CAMCE)) to manage COTS/MOTS.

Wording has been added to 4.11 COTS, MOTS, and Modified COTS and MOTS within [4. How to Do It](#) [1] to reflect this additional information.
